INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and Members
of the Borough Council
Township of Monroe
County of Middlesex, New Jersey

Report on the Financial Statements

We have audited the accompanying balance sheets – regulatory basis of the various funds and governmental fixed assets of the Township of Monroe, County of Middlesex, New Jersey, as of and for the years ended December 31, 2015 and 2014 and the related statements of operations and changes in fund balance – regulatory basis for the years then ended and the related statement of revenues – regulatory basis and statement of expenditures – regulatory basis for the year ended December 31, 2015 and the related notes to the financial statements, which collectively comprise the Township of Monroe's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the financial reporting provisions of the Division of Local Government Services, Department of Community Affairs, State of New Jersey; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States and the audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As more fully described in Note 2, these financial statements were prepared in conformity with accounting practices prescribed or permitted by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, United States of America, that demonstrate compliance with the modified accrual basis, with certain exceptions, and the budget laws of New Jersey, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. These prescribed principles are designed primarily for determining compliance with legal provisions and budgetary restrictions, and as a means of reporting on the stewardship of public officials with respect to public funds. Accordingly, the accompanying financial statements – regulatory basis are not intended to present financial position and results of operations in accordance with accounting principles generally accepted in the United States of America. The effect on the financial statements between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles paragraph, the financial statements referred to in the first paragraph do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial positions of the Township of Monroe, County of Middlesex, New Jersey, as of December 31, 2015 and 2014, the changes in its financial position, or, where applicable, its cash flows for the year then ended.

Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements – regulatory basis referred to above present fairly, in all material respects, the financial position – regulatory basis of the various funds and governmental fixed assets of the Township of Monroe, County of Middlesex, New Jersey as of December 31, 2015 and 2014 and the results of operations and changes in fund balance – regulatory basis for the year then ended and the related statements of revenues – regulatory basis and statements of expenditures – regulatory basis of the various funds for the year ended December 31, 2015, on the basis of accounting described in Note 2.

Emphasis of Matter

As discussed in Note 2 to the financial statements, during the year ending December 31, 2015, the provisions of Statement Number 68 of the Governmental Accounting Standards Board (GASB 68) became applicable to governmental entities reporting under accounting principles generally accepted in the United States of America. Under the regulatory basis of accounting, the Township does not present entity-wide financial statements and, accordingly, does not present on the face of its financial statements its proportionate share of the net pension liability of the defined benefit plans in which its employees are enrolled. Information relating to the Township's participation in cost-sharing, multiple employer defined benefit plans, as defined in GASB 68, including its proportionate share of the net pension liability of such plans based, upon a measurement date of June 30, 2015, is presented in the notes to the financial statements.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that certain information, including the Notes thereto, (Required Supplementary Information – Part II), as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements is required by the Governmental Accounting Standards Board and is prescribed by the Division of Local Government Services, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing

the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise of the Township of Monroe, County of Middlesex, New Jersey. The information included in Part III – Supplementary Schedules and Part IV – Supplementary Data, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the financial statements of the Township of Monroe, County of Middlesex, New Jersey. The information included in Part III – Supplementary Schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements, or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements – regulatory basis taken as a whole. The schedules and information contained in Part IV - Supplementary Data have not been subjected to auditing procedures applied in the audit of the financial statements and, accordingly we do not express an opinion, or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards,* we have also issued a report dated June 24, 2016 on our consideration of the Township of Monroe's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Governmental Accounting Standards* in considering the Township of Monroe's internal control over financial reporting and compliance.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and Members
of the Borough Council
Township of Monroe
County of Middlesex, New Jersey

We have audited, in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States and audit requirements as prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, the financial statements – regulatory basis, of the Township of Monroe, County of Middlesex as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the Township of Monroe, County of Middlesex's financial statements and have issued our report thereon dated June 24, 2016. Our report was modified to reflect the departures from accounting principles generally accepted in the United States of America, as disclosed in Note 2, that are embodied in the Other Comprehensive Basis of Accounting utilized for financial statement presentations, and was unmodified based upon that Other Comprehensive Basis of Accounting.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Township of Monroe's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Township of Monroe's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Township of Monroe's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A

significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Township of Monroe's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey.

We noted certain matters we have reported to management of the Township of Monroe in the General Comments and Recommendations section of the Report of Audit.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance, Accordingly, this communication is not suitable for any other purpose.

Note 1: FORM OF GOVERNMENT

The Township is managed under the Faulkner Act form of government authorized under NJSA: 40:69A-31 et. seq. Voters elect the Township Council of five (5) members to staggered, four-year terms. The Mayor is the chief executive and is directly elected to a four-year term. The Township Council is the legislative body of the municipality. The Mayor appoints department heads with Council approval. By ordinance, the business administrator supervises administration of departments, subject to the Mayor's direction.

Note 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

Except as noted below, the financial statements of the Township of Monroe include every board, body, officer or commission supported and maintained wholly or in part by funds appropriated by the Township of Monroe, as required by N.J.S.A. 40A: 5-5. Accordingly, the financial statements-regulatory basis of the Township of Monroe, do not include the operations of the local school board, municipal library and the local fire companies and the first aid squads.

B. Description of Funds

The accounting policies of the Township of Monroe conform to the accounting principles applicable to municipalities that have been prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Such principles and practices are designed primarily for determining compliance with legal provisions and budgetary restrictions and as a means of reporting on the stewardship of public officials with respect to public funds. Under this method of accounting, the Township of Monroe accounts for its financial transactions through the following separate funds:

Current Fund - resources and expenditures for governmental operations of a general nature, including Federal and State grant funds, except as otherwise noted.

Trust Fund - receipts, custodianship and disbursement of funds in accordance with the purposes for which each reserve was created.

General Capital Fund - resources, including Federal and State Grants in aid of construction, and expenditures for the acquisition of general capital facilities, other than those acquired through the Current Fund, including the status of bonds and notes authorized for said purposes.

Water and Sewer Utility Fund - resources and expenditures for the operations and acquisition of capital facilities of the municipally owned Water and Sewer Utility.

Governmental Fixed Assets - the Governmental Fixed Asset System is used to account for fixed assets used in governmental fund type operations for control purposes. All fixed assets are valued at historical cost or estimated historical cost if actual historical cost is not available or any other reasonable basis, provided such basis is adequately disclosed in the financial statements. Donated fixed assets are valued at their estimated fair value on the date of donation. No depreciation is recorded on general fixed assets.

Note 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D):

C. Basis of Accounting and Measurement Focus

The Governmental Accounting Standards Board (GASB) is the accepted standards-setting body for establishing governmental accounting and financial reporting principles. GASB's Codification of Governmental Accounting and Financial Reporting Standards and subsequent GASB pronouncements are recognized as U.S. generally accepted accounting principles (GAAP) for state and local governments. GAAP provides for the issuance of entity-wide financial statements along with the presentation of separate fund financial statements that differ from the organization of funds prescribed under the regulatory basis of accounting utilized by the Township. The resultant presentation of financial position and results of operations in the form of financial statements is not intended to present the basic financial statement presentation required by GAAP.

As indicated above, the basis of accounting utilized by New Jersey municipalities is as prescribed by the Division of Local Government Services. The basis of accounting for operating funds is generally a modified cash basis for revenue recognition and a modified accrual basis for expenditures. The operating funds utilize a "current financial resources" measurement focus. The accounting principles and practices prescribed for municipalities by the Division differ in certain respects from generally accepted accounting principles (GAAP) applicable to local government units. The most significant is the reporting of entity-wide financial statements, which are not presented in the accounting principles prescribed by the Division. The other more significant differences are as follows:

Revenues – Revenues are recorded as received in cash except for statutory reimbursements and grant funds that are due from other governmental units. State and Federal grants, entitlements and shared revenues received for operating purposes are realized as revenues when anticipated in the Township budget. Receivables for property taxes and utility consumer charges are recorded with offsetting reserves within the Current Fund and Water and Sewer Utility Fund, respectively. Other amounts that are due to the Township, which are susceptible to accrual are recorded as receivables with offsetting reserves. These reserves are liquidated and revenues are recorded as realized upon receipt of cash. GAAP requires the recognition of revenues for general operations in the accounting period in which they become available and measurable, with the exception of utility consumer charges, which should be recognized in the period they are earned and become measurable.

Expenditures - For purposes of financial reporting, expenditures are recorded as "paid or charged" or "appropriation reserves". Paid or charged refers to the Township "budgetary" basis of accounting. Generally, these expenditures are recorded when an amount is encumbered for goods or services through the issuance of a purchase order in conjunction with the encumbrance accounting system. Reserves for un-liquidated encumbrances at the close of the year are reported as a cash liability. Encumbrances do not constitute expenditures under GAAP. Appropriation reserves refer to unexpended appropriation balances at the close of the year. Appropriation reserves are automatically created and recorded as a cash liability, except for amounts, which may be cancelled by the governing body. Appropriation reserves are available until lapsed at the close of the succeeding year, to meet specific claims, commitments or contracts incurred and not recorded in the preceding fiscal year. Lapsed appropriation reserves are recorded as income. Generally, unexpended balances of budget appropriations are not recorded as expenditures under GAAP.

Note 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

C. Basis of Accounting and Measurement Focus (Cont'd.)

For the purpose of calculating the results of Current Fund operations, the regulatory basis of accounting utilized by the Township requires that certain expenditures be deferred, and raised as items of appropriation in budgets of succeeding years. These deferred charges include the two general categories of over-expenditures and emergency appropriations. Over-expenditures occur when expenditures recorded as "paid or charged" exceed available appropriation balances. Emergency appropriations occur when, subsequent to the adoption of a balanced budget, the governing body authorizes the establishment of additional appropriations based on unforeseen circumstances or for other special purposes as defined by statute. Over-expenditures and emergency appropriations are deducted from total expenditures in the calculation of operating results and are established as assets for Deferred Charges on the Current Fund balance sheet. GAAP does not permit the deferral of over-expenditures to succeeding budgets. In addition, GAAP does not recognize expenditures based on the authorization of an appropriation. Instead, the authorization of special purpose expenditures, such as the preparation of tax maps or revaluation of assessable real property, would represent the designation of fund balance.

Compensated Absences - The Township records expenditures for payments of earned and unused vacation and sick leave in the accounting period in which the payments are made. GAAP requires that expenditures be recorded in the governmental (Current) fund in an amount that would normally be liquidated with available financial resources, and that expenditures be recorded in the enterprise (Utility) fund on a full accrual basis.

Property Acquired for Taxes - Foreclosed property is recorded in the Current Fund at the assessed valuation when such property was acquired and is fully reserved. GAAP requires such property to be recorded in the governmental fixed asset account group at the lower of cost or fair market value.

Interfunds - Interfund receivables in the Current Fund are recorded with offsetting reserves, which are created by charges to operations. Income is recognized in the accounting period the receivables are liquidated. GAAP does not require the establishment of an offsetting reserve. Interfund receivables in the other funds are not offset by reserves.

Inventories of Supplies - The cost of inventories of supplies for all funds are recorded as expenditures at the time individual items are purchased. The cost of inventories is not included on the various balance sheets. Although the expenditure method of accounting for purchases of supplies is in accordance with GAAP, the cost of inventory on hand at the close of the year should be reported on the balance sheet with an offsetting reserve for conformity with GAAP.

Sale of Municipal Assets - Cash proceeds from the sale of Township owned property may be realized as revenue or reserved until utilized as an item of revenue in a subsequent year budget. Year-end balances of reserved proceeds are reported as a cash liability in the Current Fund. GAAP requires that revenue be recognized in the accounting period that the terms of the sales contracts become legally enforceable.

Fixed Assets - Property and equipment purchased by the Current and the General Capital Funds are recorded as expenditures at the time of purchase and are not capitalized. Property and equipment purchased by the Utility Fund are recorded in their capital accounts at cost and are adjusted for dispositions and abandonments. Contributions in aid of construction are not capitalized. The balances in the Reserve for Amortization and Deferred Reserve for Amortization accounts in the Utility Capital Fund represent charges to operations for the costs of acquisitions of property, equipment and improvements, and costs funded from sources other than bonded debt of the utility. The utility does not record depreciation on fixed assets. GAAP does not require the establishment of a reserve for amortization for utility fixed assets, but does require the recognition of depreciation of these assets as an operating expense of the utility.

Note 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

C. Basis of Accounting and Measurement Focus (Cont'd.)

Disclosures About Pension Liabilities – The Township has included information relating to its allocated shares of the net pension liabilities of the state sponsored, cost-sharing, multiple employer defined benefit pension plans in which it participates in the Notes to the Financial Statements and the accompanying required supplementary information. As the Township does not present entity-wide financial statements, it does not present on the face of its financial statements its proportionate share of the net pension liability of the defined benefit plans in which its employees are enrolled. GAAP requires the recognition of the net pension liability and associated deferred inflows and deferred outflows of financial resources in the entity-wide financial statements.

Governmental Fixed Assets – New Jersey Administrative Code 5:30-5.6 established a mandate for fixed asset accounting by municipalities, effective December 31, 1985. Fixed assets used in governmental operations are accounted for in the Governmental Fixed Assets. Public domain ("infrastructure") general fixed assets consisting of certain improvements other than buildings, such as roads, bridges, curbs and gutters, streets, sidewalks and drainage systems are not capitalized. All fixed assets have been valued at cost or estimated historical cost if the actual cost in not available, except for land and buildings at January 1, 1996, which have been valued at the assessed value.

Disclosures About Fair Value of Financial Instruments - The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value:

Cash and cash equivalents and short-term investments - The carrying amount approximates fair value because of the short maturity of those instruments.

Long-term debt - The Township's long-term debt is stated at face value. The debt is not traded and it is not practicable to determine its fair value without incurring excessive cost. Additional information pertinent to the Township's long-term debt is disclosed in Note 3 to the financial statements.

Recent Accounting Standards

GASB issued Statement No. 68, "Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27" in June 2012. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency and the Statement is effective for periods beginning after June 15, 2014.

GASB issued Statement No. 69, "Government Combinations and Disposals of Government Operations" in January 2013. This Statement establishes accounting and financial reporting standards related to government combinations and disposals of government operations. As used in this Statement, the term government combinations include a variety of transactions referred to as mergers, acquisitions, and transfers of operations and the Statement is effective for periods beginning after December 15, 2013.

GASB issued Statement No. 70, "Accounting and Financial Reporting for Nonexchange Financial Guarantees" in April 2013. Some governments extend financial guarantees for the obligations of another government, a not-for-profit entity, or a private entity without directly receiving equal or approximately equal value in exchange (a nonexchange transaction). As a part of this nonexchange financial guarantee, a government commits to indemnify the holder of the obligation if the entity that issued the obligation does

Note 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

not fulfill its payment requirements. Also, some governments issue obligations that are guaranteed by other entities in a nonexchange transaction. The objective of this Statement is to improve accounting and financial reporting by state and local governments that extend and receive nonexchange financial guarantees and is effective for reporting periods beginning after June 15, 2013.

GASB issued Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date" in November 2013. The objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68, Accounting and Financial Reporting for Pensions. The issue relates to amounts associated with contributions, if any, made by a state or local government employer or nonemployer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability and the Statement should be applied simultaneously with the provisions of Statement 68.

GASB issued Statement No. 72, "Fair Value Measurement and Application" in February 2015. The Statement addresses accounting and financial reporting issues related to fair value measurements and provides guidance for determining a fair value measurement for financial reporting purposes. Statement 72 is effective for periods beginning after June 15, 2015, with earlier application encouraged.

GASB issued Statement No. 73 "Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68" in June, 2015. The objective of this Statement is to improve the usefulness of information about pensions included in the general purpose external financial reports of state and local governments for making decisions and assessing accountability. This Statement establishes requirements for defined benefit pensions that are not within the scope of Statement No. 68, Accounting and Financial Reporting for Pensions, as well as for the assets accumulated for purposes of providing those pensions.

GASB issued Statement No. 74 "Financial Reporting For Postemployment Benefit Plans Other Than Pension Plans" in June 2015. This Statement replaces Statements No. 43, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans. It also includes requirements for defined contribution OPEB plans that replace the requirements for those OPEB plans in Statement No. 25, Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans, as amended, Statement 43, and Statement No. 50, Pension Disclosures.

GASB issued Statement No. 75 "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions" in June 2015. This Statement replaces the requirements of Statements No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans, for OPEB.

GASB issued Statement No. 76 "The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments" in June 2015. The objective of this Statement is to identify—in the context of the current governmental financial reporting environment—the hierarchy of generally accepted accounting principles (GAAP). This Statement supersedes Statement No. 55, The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments.

GASB issued Statement No. 77 "Tax Abatement Disclosures" in August 2015. The requirements of this Statement improve financial reporting by giving users of financial statements essential information that is not consistently or comprehensively reported to the public at present. Disclosure of information about the nature and magnitude of tax abatements will make these transactions more transparent to financial statement users.

Note 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

C. Basis of Accounting and Measurement Focus (Cont'd.)

GASB issued Statement No. 78 "Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans" in December 2015. The objective of this Statement is to address a practice issue regarding the scope and applicability of Statement No. 68, Accounting and Financial Reporting for Pensions. This issue is associated with pensions provided through certain multiple-employer defined benefit pension plans and to state or local governmental employers whose employees are provided with such pensions.

GASB issued Statement No. 79 "Certain External Investment Pools and Pool Participants" in December 2015. This Statement will enhance comparability of financial statements among governments by establishing specific criteria used to determine whether a qualifying external investment pool may elect to use an amortized cost exception to fair value measurement.

The Township does not prepare its financial statements in accordance with generally accepted accounting principles in the United States of America. The adoption of these new standards will not adversely effect the reporting on the Township's financial condition.

Use of Estimates – The preparation of the financial statements requires management of the Township to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

Comparative Data - Comparative data for the prior year has been presented in order to provide an understanding of changes on the Township's financial position and operations. However, comparative data has not been presented in each of the statements since their inclusion would make the statements unduly complex and difficult to read.

Water and Sewer Utility Fund – Effective February 1, 2009, pursuant to N.J.S.A. 40A:5A-20, the adoption of local ordinances and resolutions and the approval of the Local Finance Board, Department of Community Affairs, State of New Jersey, the Monroe Township Municipal Utilities Authority (MUA) was dissolved and its operations were absorbed by the Township of Monroe. The activity of the utility operations are recorded and reported within the Water and Sewer Utility Fund section of the Township's financial statements. The MUA, the previous entity, operated as a separate authority and reported its financial statements in accordance with accounting principles generally accepted in the United States. Upon this transition, the Township Water and Sewer Utility Fund reports its financial statements for the period February 1, 2009 through December 31, 2009, under the OCBOA form of accounting as promulgated by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. The primary differences between these accounting principles are as described above. In accordance with the establishment of the Water and Sewer Utility Fund, the Township converted the balance sheet reported by the MUA under the GAAP basis of accounting at January 31, 2009, to a balance sheet prepared by the Township as the Water and Sewer Utility Fund under the Township's OCBOA form of accounting as of February 1, 2009.

Note 3: DEBT, DEBT SERVICE AND STATUTORY DEBT CONDITION

Note 6: DEPOSITS AND INVESTMENTS

State statutes set forth deposit requirements and investments that may be purchased by local units and the Township deposits and invests its funds pursuant to its policies and an adopted cash management plan.

Deposits

New Jersey statutes permit the deposit of public funds in institutions located in New Jersey, which are insured by the Federal Deposit Insurance Corporation (FDIC) or by any other agencies of the United States that insures deposits or the State of New Jersey Cash Management Fund. New Jersey statutes require public depositories to maintain collateral for deposit of public funds that exceed insurance limits to protect deposits from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey.

Note 6: DEPOSITS AND INVESTMENTS (CONT'D.)

N.J.S.A. 17:9-41 et. seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five (5) percent of the average daily balance of collected public funds; or if the public funds deposited exceed 75 percent of the capital funds of the depository, the depository must provide collateral having a market value equal to 100 percent of the amount exceeding 75 percent, to secure the deposits of governmental units.

All collateral must be deposited with the Federal Reserve Bank, the Federal Home Loan Bank Board or a banking institution that is a member of the Federal Reserve System and has capital funds of not less that $25,000,000. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

At December 31, 2015 and 2014, the cash and cash equivalents and investments of the Township on deposit and on-hand consisted of the following:

	2015	2014
Cash and Cash Equivalents	$93,647,533.63	$84,199,275.55
Change Funds (On-Hand)	900.00	900.00
Total	$93,648,433.63	$84,200,175.55

Based upon GASB criteria, the Township considers change funds, cash in banks and investments in certificates of deposit as cash and cash equivalents. At December 31, 2015, the carrying amount of the Township's deposits and investments was $91,673,643.58 and the amount on deposit was $93,647,533.63. As of December 31, 2015, with respect to Custodial Credit Risk for Township, the amounts reported were as follows; $1,500,000.00 was covered by Federal depository insurance and $92,147,533.63 was considered covered under the provisions of NJGUDPA.

The Township has implemented the disclosure requirements of Governmental Accounting Standards Board Statement No. 40 "Deposits and Investment Risk Disclosures" (GASB 40) and accordingly the Township has assessed the Custodial Risk, the Concentration of Credit Risk and Interest Rate Risk of its cash and investments.

(a) Custodial Credit Risk – The Township's deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are: uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but no in the depositor-governments name. The deposit risk is that, in the event of the failure of a depository financial institution, the Township will not be able to recover deposits or will not be able to recover collateral securities that are in possession of an outside party. The Township's investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the Township and are held by either: the counterparty or the counterparty's trust department or agent but not in the Township's name. The investment risk is that, in the event of the failure of the counterparty to a transaction, the Township will not be able to recover the value of the investment or collateral securities that in possession of an outside party.

Note 6: DEPOSITS AND INVESTMENTS (CONT'D.)

(b) Concentration of Credit Risk – This is the risk associated with the amount of investments that Township has with any one issuer that exceeds 5 percent or more of its total investments. Investment issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments are excluded from this requirement.

(c) Credit Risk – GASB 40 requires that disclosure be made as to the credit rating of all debt security investments except for obligations of the U.S. government or obligations explicitly guaranteed by the U.S. government. This is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

In general, the Township does not have an investment policy regarding Credit Risk except to the extent outlined under the Township's investment policy. The New Jersey Cash Management Fund is not rated.

(d) Interest Rate Risk - This is the risk that changes in interest rates will adversely affect the fair value of an investment. The Township does not have a formal policy that limits investment maturities as a means of managing its exposure to fair value losses arising from interest rate fluctuations.

The Township does not have a deposit policy for custodial risk. Based upon the existing deposit and investment practices, the Township is generally not exposed to credit risks, custodial credit risks (FDIC and NJGUDPA coverage's) for its deposits and investments; concentration of credit risks and interest rate risks for its investments; nor is it exposed to foreign currency risks for its deposits and investments.

Investments

New Jersey statutes establish the following securities as eligible for the investment of Township funds:

1. Bonds or other obligations of the United States of America or obligations guaranteed by the United States;

2. Government money market mutual funds;

3. Any obligation that a federal agency or a federal instrumentality has issued in accordance with an act of Congress, which security has a maturity date not greater than 397 days from the date of purchase, provided such obligation bear a fixed rate of interest not dependent on any index or other external factor;

4. Bonds or other obligations of the Township or bonds or other obligations of school districts of which the Township is a part and within which the school district is located;

5. Bonds or other obligations having a maturity date of not more than 397 days from the date of purchase that are approved by the Division of Investment of the Department of Treasury for investment by local units;

6. Local government investment pools;

7. Deposits with the State of New Jersey Cash Management Fund established pursuant to section 1 of P.L. 1997, c. 281 (C.52:18A-90.4); or

Note 6: DEPOSITS AND INVESTMENTS (CONT'D.)

8. Agreements for the repurchase of fully collateralized securities, if:

    a. the underlying securities are permitted investments pursuant to paragraphs (1) and (3);
    b. the custody of collateral is transferred to a third party;
    c. the maturity of the agreement is more than 30 days; and
    d. the underlying securities are purchased through a public depository as defined in section 1 of P.L. 1970, c.236 (C.19:9-41) and for which a master repurchase agreement providing for the custody and security of the collateral is executed.

New Jersey Cash Management Fund – All investments in the Fund are governed by the regulations of the Investment Council, which prescribe specific standards designed to insure the quality of investments and to minimize the risks related to investments. In all the years of the Division of Investment's existence, the Division has never suffered a default of principal or interest on any short-term security held by it due to the bankruptcy of a securities issuer; nevertheless, the possibility always exists, and for this reason a reserve is being accumulated as additional protection for the "Other Than State" participants.

In addition to the Council regulations, the Division sets further standards for specific investments and monitors the credit of all eligible securities issuers on a regular basis.

Note 7: ASSESSMENT AND COLLECTION OF PROPERTY TAXES

New Jersey statutes require that taxable valuation of real property be prepared by the Tax Assessor as of October 1 in each year and filed with the County Board of Taxation by January 10 of the following year. Upon the filing of certified adopted budgets by the Township, Local School District and County the tax rate is struck by the board based on the certified amounts in each of the taxing districts for collection to fund the budgets. Pursuant to statute, this process is to be completed on or before May 3, with a completed duplicate of the tax rolls to be delivered to the Tax Collector on or before May 13th.

Tax bills are prepared and mailed by the Collector of Taxes annually and set forth the final tax for the tax year. The bill contains a credit for preliminary amounts billed previously with the balance payable in equal installments on August 1st and November 1st of the tax year. In addition, the property owner receives a preliminary bill for the succeeding year based on one half of the prior year's tax. The preliminary payments are due and payable on February 1st and May 1st. The New Jersey Statutes allow a grace period of 10 days for each payment period and the Township granted this option to taxpayers. Taxes become delinquent if not paid on the installment dates and become subject to interest penalties of 8% to 18% of the amount delinquent, and if a delinquency (including interest) is in excess of $10,000.00 and remains in arrears after December 31, an additional flat penalty of 6% may be charged against the delinquency. If taxes are delinquent on or after April 1st of the succeeding year, the delinquent amount is subject to "Tax Sale" which places a tax lien on the property allowing the holder to enforce the tax lien by collection or foreclosure. New Jersey property tax laws establish a tax lien on real estate as of January 1st of the current tax year even though the amount due is not known.

Note 8: FIXED ASSETS

The Township's fixed assets are reported as follows:

	Balance December 31, 2014	Increase	Decrease	Balance December 31, 2015
Land	$3,769,000.00	$ -	$ -	$3,769,000.00

	$29,133,762.28	$11,912,852.90	$ 474,843.00	$40,571,772.18

Note 9. PENSION PLANS

Description of Plans - The State of New Jersey, Division of Pension and Benefits (the Division) was created and exists pursuant to N.J.S.A. 52:18A to oversee and administer the pension trust and other postemployment benefit plans sponsored by the State of New Jersey (the State). According to the State of New Jersey Administrative Code, all obligations of the Systems will be assumed by the State of New Jersey should the plans terminate. Each defined benefit pension plan's designated purpose is to provide retirement, death and disability benefits to its members. The authority to amend the provision of plan rests with new legislation passed by the State of New Jersey. Pension reforms enacted pursuant to Chapter 78, P.L. 2011 included provisions creating special Pension Plan Design Committees for the Public Employees Retirement System (PERS) and the Police and Firemen's Retirement System (PFRS), once a Target Funded Ratio (TFR) is met, that will have the discretionary authority to modify certain plan design features, including member contribution rate; formula for calculation of final compensation or final salary; fraction used to calculate a retirement allowance; age at which a member may be eligible and the benefits for service or early retirement; and benefits provided for disability retirement. The committee will also have the authority to reactivate the cost of living adjustment (COLA) on pensions. However, modifications can only be made to the extent that the resulting impact does not cause the funded ratio to drop below the TFR in any one year of a projection period. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for each of the plans. This report may be accessed via the Division of Pensions and Benefits website, at www.state.nj.us/treasury/pensions, or may be obtained by writing to the Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey, 08625.

A. Public Employees' Retirement System (PERS) - The Public Employee Retirement System is a cost-sharing, multiple employer defined benefit pension plan as defined in GASB Statement No. 68. The Plan is administered by The New Jersey Division of Pensions and Benefits (Division). The more significant aspects of the PERS Plan are as follows:

Note 9. PENSION PLANS (CONT'D.)

A. Public Employees' Retirement System (PERS) (Cont'd.)

Plan Membership and Contributing Employers- Substantially all full-time employees of the State of New Jersey or any county, municipality, school district or public agency are enrolled in PERS, provided the employee is not required to be a member of another state-administered retirement system or other state pension fund or other jurisdiction's pension fund. Membership and contributing employers of the defined benefit pension plans consisted of the following at June 30, 2015:

Inactive plan members or beneficiaries currently receiving benefits	166,637
Inactive plan members entitled to but not yet receiving benefits	703
Active plan members	259,161
Total	426,501

Contributing Employers – 1,710.

Significant Legislation – For State of New Jersey contributions to PERS, Chapter 1, P.L. 2010, effective May 21, 2010, required the State to resume making actuarially recommended contributions to the pension plan on a phased-in basis over a seven year period beginning in the fiscal year ended June 30, 2012. For State fiscal year 2015, the State was required to make a minimum contribution representing 4/7th of the actuarially determined contribution amount based on the July 1, 2013 actuarial valuation.

Chapter 19, P.L. 2009, effective March 17, 2009, provided an option for local employers of PERS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in State Fiscal Year 2009. Such an employer will be credited with the full payment and any such amounts will not be included in their unfunded liability. The actuaries will determine the unfunded liability of PERS, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15 years beginning with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets. Pursuant to the provision of Chapter 78, P.L. 2011, COLA increases were suspended for all current and future retirees of PERS.

For the year ended December 31, 2015 the Township's total payroll for all employees was $23,447,983. Total PERS covered payroll was $14,231,684. Covered payroll refers to all compensation paid by the Township to active employees covered by the Plan.

Specific Contribution Requirements and benefit provisions – The contribution policy is set by N.J.S.A 43:15 and requires contributions by active members and contributing employers. Members contribute at a uniform rate. Pursuant to the provisions of Chapter 78, P.L. 2011, the active member contribution rate increased from 5.5% of annual compensation to 6.5% plus an additional 1% phased-in over 7 years beginning in July 2012. The member contribution rate was 6.78% in State fiscal year 2014 and increased to 6.92% for State fiscal year 2015, commencing July 1, 2015. The phase-in of the additional incremental member contribution rate takes place in July of each subsequent State fiscal year. Employer's contribution amounts are based on an actuarially determined rate. The annual employer contributions include funding for basic retirement allowances and noncontributory death benefits. The Township's cash basis contributions to the Plan for the years ended December 31, 2014 and 2015 were $1,565,173 and $1,678,134, respectively. Township Contributions are due and payable on April 1st in the second fiscal period subsequent to plan year for which the contribution requirements were calculated. Township payments to PERS for the years ending December 31, 2014 and 2015 consisted of the following:

Note 9. PENSION PLANS (CONT'D.)

A. Public Employees' Retirement System (PERS) (Cont'd.)

	2014	2015
Normal Cost	$273,658	$268,846
Amortization of Accrued Liability	1,203,171	1,243,621
Total Pension	1,476,829	1,512,467
NCGI Premiums	25,116	102,439
Total Regular Billing	1,501,945	1,614,906
Additional Billings:		
ERI	63,228	63,228
Total PERS Payment	$1,565,173	$1,678,134

When applicable, Ch. 19, P.L. 2009 billings reflect the recoupment of the 50% deferral of normal and accrued liability costs due on April 1, 2009. The law set a fifteen-year repayment schedule for the deferred amount, with additional annual adjustments to reflect the return on investment of actuarial net assets of the plan on deferred principal balances. The Township did not participate in the Ch. 19 program.

ERI billings reflect the recoupment of the additional costs of pensions and health benefits, plus interest, resulting from an entities participation in a sponsored early retirement program.

The Township recognizes liabilities to PERS and records expenditures for same in the fiscal period that bills become due.

The vesting and benefit provisions are set by N.J.S.A. 43:15. PERS provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of PERS.

The following represents the membership tiers for PERS:

Tier	Definition
1	Members who were enrolled prior to July 1, 2007.
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members who were eligible on or after November 2, 2008 and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

A service retirement benefit of $1/55^{th}$ of final average salary for each year of service credit is available to tier 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of $1/60^{th}$ of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tier 1 and 2 members before reaching age 60, to tier 3 and 4 members before age 62 and tier 5 members with 30 or more years of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the retirement age of his/her respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Note 9. PENSION PLANS (CONT'D.)

A. Public Employees' Retirement System (PERS) (Cont'd.)

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions – The regulatory basis of accounting which is basis for the preparation of the Township's basic financial statements does not require or permit the inclusion of entity-wide, full accrual basis financial statements. Accordingly, the Township does not recognize pension liabilities for any current or prior period until the fiscal period in which such payments will become due and payable.

At June 30, 2015, the PERS reported a liability of $22,447,996,119 for its Non-State Employer Member Group. The Township's proportionate share of the net pension liability for the Non-State Employer Group that is attributable to the Township was $44,491,760 or 0.198199%. At June 30, 2014, the PERS reported a net pension liability of $18,722,735,003 for its Non-State Employer Member Group. The proportionate share of the State of New Jersey's net pension liability for the Non-State Employer Member Group that is attributable to the Township was $36,676,354 or 0.195892%.

Actuarial Assumptions- The total pension liability in the June 30, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.04%
Salary Increases (2012-2021)	2.15-4.40% Based on age
Thereafter	3.15-5.40% Based on age
Investment rate of return	7.90%

Mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback 1 year for males and females) for service retirement and beneficiaries of former members with adjustments for mortality improvements from the base year of 2012 based on Projection Scale AA. The RP-2000 Disabled Mortality Tables (setback 3 years for males and setback 1 year for females) are used to value disabled retirees.

The actuarial assumptions used in the July 1, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2008 to June 30, 2011. It is likely that future experiences will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rate of return (expected returns, net of pension plans investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic real rates of return for each major asset class included in the pension plans' target asset allocation as of June 30, 2015 are summarized in the following table:

Discount Rate – The discount rate used to measure the pension liabilities of PERS was 4.90%

Sensitivity of Net Pension Liability – the following presents the net pension liability of PERS calculated using the discount rates as disclosed above as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage rate higher than the current rate:

	At 1% Decrease	At current discount rate	At 1% increase
PERS	$55,702,235,475	$46,170,131,656	$38,191,749,890

Plan Fiduciary Net Position – The plan fiduciary net position for PERS, including the State of New Jersey, at June 30, 2015 was $28,553,566,906. Information regarding the portion of the Plan Fiduciary Net Position that was allocable to the Local (Non-State) Group was not available.

B. Police and Firemen's Retirement System (PFRS) - The Police and Firemen's Retirement System is a cost-sharing, multiple employer defined benefit pension plan as defined in GASB Statement No. 68. The Plan is administered by The New Jersey Division of Pensions and Benefits (Division). The more significant aspects of the PFRS Plan are as follows:

Plan Membership and Contributing Employers- Substantially all full-time county and municipal police or firemen and state firemen or officer employees with police powers appointed after June 30, 1944 are enrolled in PFRS. Membership and contributing employers of the defined benefit pension plans consisted of the following at June 30, 2015:

Inactive plan members or beneficiaries currently receiving benefits	44,252
Inactive plan members entitled to but not yet receiving benefits	51
Active plan members	40,359
Total	84,662

Contributing Employers – 585.

B. Police and Firemen's Retirement System (PFRS) (Cont'd.)

In addition to the State, who is the sole payer of regular employer contributions to the fund, TPAF's contributing employers include boards of education who elected to participate in the Early Retirement Incentive Program and continue to pay towards their incurred liability.

Significant Legislation – For State of New Jersey contributions to PFRS, Chapter 1, P.L. 2010, effective May 21, 2010, required the State to resume making actuarially recommended contributions to the pension plan on a phased-in basis over a seven year period beginning in the fiscal year ended June 30, 2012. For State fiscal year 2015, the State was required to make a minimum contribution representing 4/7th of the actuarially determined contribution amount based on the July 1, 2013 actuarial valuation.

Pursuant to the provision of Chapter 78, P.L. 2011, COLA increases were suspended for all current and future retirees of PFRS.

For the year ended December 31, 2015 the Township's total payroll for all employees was $23,447,983. Total PFRS covered payroll was $6,009,412. Covered payroll refers to all compensation paid by the Township to active employees covered by the Plan.

Specific Contribution Requirements and benefit provisions – The contribution policy is set by N.J.S.A 43:16A and requires contributions by active members and contributing employers. Pursuant to the provisions of Chapter 78, P.L. 2011, the active member contributions rate increased from 8.5% of annual compensation to 10.0% in October 2011. Employers' contributions are based on an actuarially determined amount, which includes the normal cost and unfunded accrued liability. The annual employer contributions include funding for basic retirement allowances and noncontributory death benefits. The Township's cash basis contributions to the Plan for the years ended December 31, 2014 and 2015 were $1,211,058 and $1,273,833, respectively. Township Contributions are due and payable on April 1st in the second fiscal period subsequent to plan year for which the contribution requirements were calculated. Township payments to PFRS for the years ending December 31, 2014 and 2015 consisted of the following:

	2014	2015
Normal Cost	$394,328	$405,989
Amortization of Accrued Liability	752,351	791,101
Total Pension	1,146,679	1,197,090

Total Regular Billing	1,192,834	1,255,062
Additional Billings:		
ERI	18,224	18,771
Total PFRS Payment	$1,211,058	$1,273,833

The vesting and benefit provisions are set by N.J.S.A. 43:16A. PFRS provides retirement as well as death and disability benefits. All benefits vest after ten years of service, except disability benefits, which vest after four years of service.

Note 9. PENSION PLANS (CONT'D.)

B. Police and Firemen's Retirement System (PFRS) (Cont'd.)

The following represents the membership tiers for PFRS:

Tier	Definition
1	Members who were enrolled prior to May 22, 2010
2	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
3	Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits are available at age 55 and are generally determined to be 2% of final compensation for each year of creditable service, as defined, up to 30 years plus 1% for each year of service in excess of 30 years. Members may seek special retirement after achieving 25 years of creditable service, in which benefits would equal 65% (tiers 1 and 2 members) and 60% (tier 3 members) of final compensation plus 1% for each year of creditable service over 25 years but not to exceed 30 years. Members may elect deferred retirement benefits after achieving ten years of service, in which case benefits would begin at age 55 equal to 2% of final compensation for each year of service.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions – The regulatory basis of accounting which is basis for the preparation of the Township's basic financial statements does not require or permit the inclusion of entity-wide, full accrual basis financial statements. Accordingly, the Township does not recognize pension liabilities for any current or prior period until fiscal period in which such payments will become due and payable.

At June 30, 2015, the PFRS reported a net pension liability of $16,656,514,197 for its Non-State, Non-Special Funding Situation Employer Member Group. The Township's proportionate share of the net pension liability for the Non-State, Non-Special Funding Situation Employer Member Group was $27,182,.989 or 0.163197%. At June 30, 2014, the PFRS reported a net pension liability of $12,579,072,492 for its Non-State, Non-Special Funding Situation Employer Member Group. The Township's proportionate of the net pension liability for the Non-State Non-Special Funding Situation Employer Member Group was $20,554,813 or 0.163405%.

Actuarial Assumptions- The total pension liability in the June 30, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.04%
Salary Increases (2012-2021)	2.60-9.48% Based on age
Thereafter	3.60-10.48% Based on age
Investment rate of return	7.90%

Mortality rates were based on the RP-2000 Combined Healthy Mortality Tables projected one year using Projection Scale AA and one year using Projection Scale BB for male service retirements with adjustments for mortality improvements from the base year based on Projection Scale BB. Mortality rates were based on the RP-2000 Combined Healthy Mortality Tables projected fourteen years using Projection Scale BB for female service retirements and beneficiaries with adjustments for mortality improvements from the base year of 2014 based on Projection Scale BB.

The actuarial assumptions used in the July 1, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2010 to June 30, 2013.

Note 9. PENSION PLANS (CONT'D.)

B. Police and Firemen's Retirement System (PFRS) (Cont'd.)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rate of return (expected returns, net of pension plans investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plans' target asset allocation as of June 30, 2015 are summarized in the following table:

Asset Class	
Cash	1.04%
U.S. Treasuries	1.64%
Investment Grade Credit	1.79%
Mortgages	1.62%
High Yield Bonds	4.03%
Inflation-Indexed Bonds	3.25%
Broad US Equities	8.52%
Developed Foreign Equities	6.88%
Emerging Market Equities	10.00%
Private Equity	12.41%
Hedge Funds/Absolute Return	4.72%
Real Estate (Property)	6.83%
Commodities	5.32%
Global Debt ex US	-0.40%
REIT	5.12%

Discount Rate – The discount rate used to measure the pension liabilities of PFRS was 5.79%

Sensitivity of Net Pension Liability – the following presents the net pension liability of PFRS calculated using the discount rates as disclosed above as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage rate higher than the current rate:

	At 1% Decrease	At current discount rate	At 1% increase
PFRS	$29,053,805,391	$22,410,906,984	$16,996,545,615

Plan Fiduciary Net Position – The plan fiduciary net position for PFRS, including the State of New Jersey, at June 30, 2015 was $25,106,858,921.

C. Defined Contribution Retirement System (DCRP)

The Defined Contribution Retirement Plan (DCRP) is a multiple employer defined contribution plan as defined in GASB Statement No. 68. The Plan is administered by The New Jersey Division of Pensions and Benefits (Division). The more significant aspects of the DCRP are as follows:

Note 9. PENSION PLANS (CONT'D.)

C. Defined Contribution Retirement System (DCRP) (Cont'd.)

Plan Membership and Contributing Employers- Enrollment in the DCRP is required for state or local officials, elected or appointed on or after July 1, 2007; employees enrolled in TPAF or PERS on or after July 1, 2007, who earn salary in excess of established "maximum compensation" limits; employees otherwise eligible to enroll in TPAF or PERS on or after November 2, 2008, who do not earn the minimum annual salary for tier 3 enrollment but who earn salary of at least $5,000 annually; and employees otherwise eligible to enroll in TPAF or PERS after May 21, 2010, who do not work the minimum number of hours per week required for tier 4 or tier 5 enrollment, but who earn salary of at least $5,000 annually. At June 30, 2014, the membership in the DCRP, based on the information within the Division's database, was 28,270.

Contribution Requirement and Benefit Provisions - State and local government employers contribute 3% of the employees base salary. Active members contribute 5.5% of base salary.

Eligible members are provided with a defined contribution retirement plan intended to qualify for favorable Federal income tax treatment under IRC Section 401(a), a noncontributory group life insurance plan and a noncontributory group disability benefit plan. A participant's interest in that portion of his or her defined contribution retirement plan account attributable to employee contributions shall immediately become and shall at all times remain fully vested and non forfeitable. A participant's interest in that portion of his or her defined contribution retirement plan account attributable to employer contributions shall be vested and non forfeitable on the date the participant commences the second year of employment or upon his or her attainment of age 65, while employed by an employer, whichever occurs first.

For the year ended December 31, 2015 the Township's total payroll for all employees was $23,447,983. Total DCRP covered payroll was $424,292. Covered payroll refers to all compensation paid by the Township to active employees covered by the Plan. Township and employee contributions to the DCRP for the year ended December 31, 2015 and 2014 were $12,249 and $13,792, respectively.

Note 10: POST-RETIREMENT HEALTH CARE BENEFITS

The Township provides medical, prescription drug and Medicare Part B reimbursement to retirees and their covered dependents, in accordance with applicable resolutions and collective bargaining agreements. The Township maintains a single-employer, defined benefit health plan with benefits provided through insurance carriers and by third party claims administrators. All active employees who retire from the Township and meet the eligibility criteria receive these benefits.

The Township currently funds the costs to provide postemployment benefits on a pay-as-you-go basis. The Township establishes and has the power to amend benefits and contribution obligations, subject to collective bargaining agreements.

In 2008, the Township adopted the disclosure provisions of GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. This statement establishes guidelines for reporting costs associated with "other the postemployment benefits" (OPEB). OPEB costs are actuarially calculated based on benefits (other than pensions), which current and retired employees have accrued as a result of their respective employment contracts.

Note 10: POST-RETIREMENT HEALTH CARE BENEFITS (CONT'D)

The Division of Local Government Services, Department of Community Affairs, State of New Jersey, issued Local Finance Notice 2007-15, *Implementing GASB 45: Disclosure of Liabilities for Other Post-Employment Benefits for Municipalities and Counties*, to address the implementation of GASB Statement No. 45. The Notice states that local units are not required to accrue and report the long-term liability on their balance sheet, however, they are required to calculate and disclose their obligation in accordance with GASB Statement No. 45.

As required by Local Finance Notice 2007-15, the Township must disclose it OPEB costs as determined by GASB Statement No. 45. In accordance with this standard, the Township's annual OPEB cost for the plan is based on the Annual Required Contribution (ARC), and amount actuarially determined in accordance with the parameters of GASB Statement No. 45, to include both the value of benefits earned during the year (Normal Cost) and an amortizing of the unfunded actuarially accrued liability over a period not to exceed thirty years. The amortization costs for the initial unfunded actuarial accrued liability is determined as the actuarial present value of the portion of projected benefits which is allocated to service before the current plan year, a level of percentage of payroll, for a period of 30 years, with an assumption that payroll increases by 3% per year.

The Township's ARC for the year ended December 31, 2014 was $6,342,000, of which $1,465,000 was calculated as funded by the amount expended for these benefits.

The Township's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation (NOO), which represents the difference between the amount contributed to the Plan by the Township, and the annual OPEB cost for fiscal year ended December 31, 2014, was as follows:

Net OPEB obligation-beginning of year	$25,677,000
Annual required contribution (ARC)	6,342,000
Interest on net OPEB obligation	1,155,000
ARC adjustments	-1,576,000
Contributions	-1,465,000
Net OPEB obligation – end of year	$30,133,000
Contribution Percentage	18.10%

The funded status of the plan for the Township as of December 31, 2014 (the most recent actuarial valuation date), is as follows:

	Total
Actuarial accrued liability (AAL)	$81,486,000
Actuarial value of plan assets	- 0 -
Unfunded actuarial accrued liability (UAAL)	$81,486,000
Funded ratio (actuarial value of plan assets/AAL)	0.00%
Covered payroll (active plan members)	$18,091,936
UAAL as a percentage of covered payroll	450.40%

Note 10: POST-RETIREMENT HEALTH CARE BENEFITS (CONT'D)

The projection of future benefits for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the health-care cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress presented as required supplementary information following the notes to the financial statements, presents trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the December 31, 2014 actuarial valuation, the projected unit credit method was used. A rate of 4.50% was utilized as the discount rate and an annual healthcare cost trend rate of 9.0% medical, grading down to a rate of 5% effective 2019 and thereafter. The unfunded accrued liability is being amortized as a level dollar amount using an open period of thirty (30) years. The Township's next actuarial evaluation of its OPEB costs is schedule for the year ended December 31, 2016.

Note 11: ACCRUED SICK AND VACATION BENEFITS

The Township has permitted employees to accrue unused sick pay, which may be taken as time off or paid at a later date at an agreed upon rate. It is estimated that the cost of such unpaid sick and vacation pay would approximate $2,198,509.00 and $3,249,518.67 for 2015 and 2014. This amount represents the current value of all accumulations, and is not intended to portray amounts that would be recorded under GAAP. Expenditures for payment of accrued sick and vacation benefits are recorded in the period in which payments are made as part of the current year's operating budget appropriations.

Note 12: RISK MANAGEMENT

The Township is exposed to various risks of loss related to general liability, automobile coverage, damage and destruction of assets; errors and omissions; injuries to employees; natural disasters; workers. The Township has obtained insurance coverage to guard against these events which will provide minimum exposure to the Township should they occur.

Effective August 1, 2010, the Township joined the Middlesex County Joint Insurance Funds covering risk of loss. The Fund, which is organized and operated pursuant to the regulatory authority of the Departments of Insurance and Community Affairs, State of New Jersey, provides for a pooling of risks, subject to established limits and deductibles. Payments to the Fund are calculated by the Fund's governing board based upon actuarial and budgetary requirements. Each participant in the Fund is jointly and severably obligated for any deficiency in the amount available to pay all claims. At December 31, 2013, the most recent report made available, the Fund reported for all years combined, total assets of $31,518,323; liabilities and reserves of $38,617,220; which includes case reserves of $14,999,662 and IBNR of $23,290,382 and a deficit fund balance for all years of $7,098,897.

New Jersey Unemployment Compensation Insurance – The Township has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the Township is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The Township is billed quarterly for amounts due to the State.

Note 13: DEFERRED COMPENSATION

The Township has instituted a Deferred Compensation Plan pursuant to section 457 of the Internal Revenue Code and P.L. 1977, C. 381; P.L. 1978, C. 39; P.L. 1980, C. 78; and P.L. 1997, C. 116 of the Statutes of New Jersey. The Plan is an arrangement whereby a public employer may establish a plan and permit its employees to voluntarily authorize a portion of their current salary to be withheld and invested in one or more of the types of investments permitted under the governing regulations. The Township has engaged a private contractor to administer the plan.

Note 14: TAX APPEALS

There are 182 tax appeals pending, requesting a reduction of assessed valuation for 2015 and prior years, of which 46 are considered to be small claim appeals and 136 non-small claim appeals. The aggregate assessed valuation of the properties under appeal totals $593,350,800. Any reduction in assessed valuation will result in a refund of prior year's taxes in the year of settlement. The Township has established a reserve for tax appeals that is funded by either budget appropriations or charges to the current year Current Fund operations. To the extent tax appeals exceed the amount of reserves established, appeals may be funded from the Township's tax levy, direct charges to the Township's operations or through the issuance of refunding bonds per N.J.S.A. 40A:2-51.

Note 15: COMMITMENTS AND CONTINGENCIES

The Township participates in several federal and state financial assistance grant programs. Entitlement to the funds is generally conditioned upon compliance with terms and conditions of the grant agreements and applicable regulations, including the expenditures of funds for eligible purposes. These programs are also subject to compliance and financial audits by the grantors or their representatives. The Township does not believe that any material liabilities would result from such audits, should they occur.

As of the date of this report, the Township has litigation pending that traditionally would be covered through the procurement of liability insurance coverage's.

MIDDLESEX COUNTY, NEW JERSEY

PART V

GENERAL COMMENTS AND RECOMMENDATIONS

TOWNSHIP OF MONROE
COUNTY OF MIDDLESEX, NEW JERSEY

GENERAL COMMENTS
FOR THE YEAR ENDED DECEMBER 31, 2015

GENERAL COMMENTS

An audit of the financial accounts and transactions of the Township of Monroe, County of Middlesex, New Jersey, for the year ended December 31, 2015, has been completed. The General Comments are herewith set forth:

Scope of Audit

The audit covered the financial transactions of the Finance Department and Outside Offices/Other Officials Collecting Fees of the Township of Monroe, County of Middlesex, New Jersey.

The audit did not and could not determine the character of services rendered for which payment had been made or for which reserves had been set up, nor could it determine the character, proper price or quantity of materials supplied for which claims had been passed. These details were necessarily covered by the internal review and control before approval of such claims by the Governing Body. Cash on hand was counted and cash and investment balances were reconciled with independent certifications obtained directly from the depositories. Revenues and receipts were established and verified as to source and amount insofar as the records permitted.

INTERNAL CONTROL MATTERS

In planning and performing our audit of the financial statements of the Township of Monroe, County of Middlesex, New Jersey as of and for the fiscal year ended December 31, 2015, in accordance with auditing standards generally accepted in the United States of America, we considered the Township's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control. Accordingly, we do not express an opinion on the effectiveness of the Township's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be deficiencies, significant deficiencies, or material weaknesses.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis.

A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

With respect to the reporting of internal control matters, standards require that only a significant deficiency and/or a material weakness need be reported in writing to management and those charged with governance.

GENERAL COMMENTS

INTERNAL CONTROL MATTERS (Cont'd)

The deficiencies in internal control, as reported below, are not considered to be significant deficiencies nor material weaknesses. In addition, these deficiencies are not required to be reported in writing however, these deficiencies are presented to management and those charged with governance in this report as a means to present those matters identified in review of the Township's internal controls and as a means to inform management and those charged with governance as to the auditing standards requirements with respect to internal controls.

During our audit, we noted certain matters involving the internal control and other operational matters that have been discussed with management. These matters do not affect our report dated June 24, 2016 on the financial statements of the Township of Monroe. Our comments and recommendations, which have been discussed with appropriate members of management, are intended to improve internal control or result in other operating efficiencies.

We identified certain deficiencies in internal control, as follows:

Internal Control Deficiencies:

2015-1 Segregation of Duties - Other Offices and Officials Collecting Fees

Conditions exist whereby the same individual may collect, record and deposit/remit cash receipts to the Finance Office in the following offices/departments: Township Clerk, Zoning/Planning, Construction Code Official, Police Department, Recreation/Parks Department and Clinical Coordinator.

OTHER MATTERS

Contracts and Agreements Required to be Advertised for N.J.S.A. 40A:11-4

N.J.S.A. 40A:11-4 states "every contract awarded by the contracting agent for the provision or performance of any goods or services, the cost of which in the aggregate exceeds the bid threshold, shall be awarded only by resolution of the governing body of the contracting unit to the lowest responsible bidder after public advertising for bids and bidder therefore, except as is provided otherwise in this act or specifically by any other law. The governing body of a contracting unit may, by resolution approved by a majority of the governing body and subject to subsections b. and c. of this section, disqualify a bidder who would otherwise be determined to be the lowest responsible bidder, if the governing body finds that it has had prior negative experience with the bidder.

The governing body of the Township has the responsibility of determining whether the expenditures in any category will exceed the bid threshold within the fiscal year. Where question arises as to whether any contract or agreement might result in violation of the statute, the Township Council's opinion should be sought before a commitment is made.

On September 28, 2015, the Local Public Contracts Law was amended, effective on July 1, 2015. The amendment addresses the bid threshold (Section 7, N.J.S.A. 40A:11-3), thereby increasing the amount from $36,000.00 to $40,000.00 under which a contract may be awarded without public advertising for those municipalities that have appointed a Qualified Purchasing Agent.

The maximum bid threshold remains at $17,500.00 for those municipalities that do not have a Qualified Purchasing Agent. As of December 31, 2015, the Township has a Qualified Purchasing Agent

The Township's official minutes indicate that bids were requested by public advertising for the following items tested:

GENERAL COMMENTS

Contracts and Agreements Required to be Advertised for N.J.S.A. 40A:11-4 (Cont'd)

Materials, Supplies, Construction, Repairs and Other Services:

Tree Removal and Pruning; Electrical Repair and Maintenance; Out-Side Snow & Ice Removal; Sodium Chloride; System Repair Services; Trash Liners; Compactor Bags.

State Approved Contracts for the Following Purchases:

On January 5, 2015 the Township Council approved a resolution approving purchases from multiple state contract vendors.

In as much as the system of records did not provide for an accumulation of payments for categories for the performance of any work or the furnishing or hiring of any materials or supplies, the results of such an accumulation could not reasonably be ascertained. Disbursements were reviewed, however, to determine whether any clear cut violations existed.

The testing of purchases did not reveal any individual payments, contracts or agreements over the $36,000 or $40,000 bid thresholds, "for the performance of any work or the furnishing or hiring of any materials or supplies," other than those where bids had been previously sought by public advertising or where a resolution had been previously adopted under the provisions of N.J.S.A. 40A: 11-4.

The minutes indicate that resolutions were adopted and advertised authorizing the awarding of contracts or agreements for "Professional Services" per N.J.S.A. 40A:11-5.

Any interpretation as to possible violation of N.J.S.A. 40A:11-4 would be in the province of the Township solicitor.

Pay-to-Play and Business Registration Requirements

The threshold for Pay-to-Play is set at $17,500, with no escalator provision. Any contract that does not meet "fair and open" standards requires the Township to obtain the necessary c. 271 documents. The provisions of c. 271 became effective on January 1, 2006.

A non-compliance would result with the issuance of purchase order exceeding $17,500 during the fiscal period without a "fair and open" process, and without obtaining the requisite disclosures.

Tests of expenditures indicated the Township had the required documentation for compliance with P.L. 2005, c.271 for items tested.

OTHER MATTERS

Surety Bond Coverage

The "List of Officials", included as part of the Supplementary Data section of this report, discloses the status of surety bond coverage's in effect at December 31, 2015. A review of surety bond coverage as of December 31, 2015, disclosed compliance with requirements, as promulgated by the Local Finance Board, State of New Jersey, for the Municipal Court and Collector.

During July 1998 the Local Finance Board completed a readopting of the Board's general rules in the New Jersey Administrative Code. Based upon the new provisions of N.J.A.C. 5:30-8.3 and 8.4, local units are encouraged to utilize new recommended amounts in lieu of the minimum amounts in order to provide a higher level of security of public funds. We suggest that the Township review these revised regulations and determine their applicability and also determine if other positions should be bonded separately or covered with increased blanket coverage.

GENERAL COMMENTS

Collection of Interest on Delinquent Taxes and Assessments

The statute provides the method for authorizing interest and the maximum rates to be charged for the nonpayment of taxes or assessments on or before the date when they would become delinquent.

The governing body, on January 5, 2015 adopted a resolution authorizing interest to be charged on delinquent taxes.

An examination of the Tax Collector's records indicated that interest on delinquent accounts was calculated in accordance with the foregoing resolution for items tested.

Delinquent real estate taxes and tax title liens at December 31, 2015 are as follows:

CATEGORY	AMOUNT
Delinquent Taxes	$ 1,719,427.61
Tax Title Liens	291,819.62
	$ 2,011,247.23

Investment of Idle Funds

The Chief Financial Officer had the greater portion of the idle funds of the Township invested in interest-bearing investments or accounts during CY 2015. Earnings from the investments are shown as revenue in the various accounts of the Township for CY 2015.

The Township has adopted a formal cash management plan as required by state rules and regulations

Purchase Order System/ Encumbrance Accounting System and Payment of Claim

The Township's budgetary operation is on a full encumbrance accounting system. In addition, actions authorizing commitments on behalf of the Township should be preceded by the confirmation of availability of funds in all cases.

Claims were examined on a test basis for the year under review and voucher packages were found to be complete in all respects, primarily with respect to approval signatures and supporting documentation.

Municipal Court

The financial records maintained by the Municipal Court during the period were reviewed. The examination of the general account indicated that deposits were recorded and spread by receipt category and cash was reconciled monthly. The examination of the bail account's financial and supporting records maintained by the Municipal Court indicated that the analysis of outstanding bail was reconciled to the book balance.

The processing of traffic and criminal cases entered on the State's on-line computer system indicated no exceptions with respect to items tested.

Condition of Records – Outside Offices and Departments

Our reviews of records maintained by Outside Offices collecting fees were designed to determine that minimum levels of internal controls and accountability were met, that cash receipts were deposited or turned over to the Treasurer's accounts within a 48 hour period as required by N.J.S.A. 40A: 5-15, that amounts charged were in accordance with the provisions of the Township Code and that monthly financial reports are being submitted to the Finance Department on a timely basis.

GENERAL COMMENTS

OTHER MATTERS (CONT'D)

Condition of Records – Outside Offices and Departments (Cont'd)

The examination of the records of the various outside offices and departments indicated the following for the fiscal year ended December 31, 2015: The outside offices and departments maintain cashbooks and prepare and submit monthly reports to the Finance Department and no exceptions were noted for items tested.

Internal Control Documentation

Statement on Auditing Standards 115 identifies inadequate documentation of internal controls as a possible deficiency, significant deficiency or material weakness. As the Township has initiated the process of documenting its controls, we suggest the Township consider utilizing the framework established by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) for its documentation, which includes the five components of internal controls, as follows: Control Environment; Risk Assessment; Control Activities; Information and Communication; and Monitoring. In addition, we suggest the documentation also include the internal controls that exist over grant compliance.

Water-Sewer Utility Fund

The result of operation for the Water-Sewer Utility Operating Fund is set forth in Exhibit "D-1" of this report. Realized revenues amounted to $16,792,093.93 and expenditures amounted to $15,452,272.81 resulting in excess revenues of $1,339,821.12. The calculation of "Self-Liquidating Purpose" utility operations per N.J.S.A. 40A: 2-45 resulted in a statutory excess for debt statement purposes of $1,495,777.43 which allows for the total deduction of Water-Sewer Utility Debt in the calculation of the statutory net debt of the Township at December 31, 2015. A reconciliation of the excess revenues from operations (Exhibit - D-1) and the excess in revenues for debt statement purposes is included in the Notes to the Financial Statements.

It was noted that the integration of the Utility's financial operations with that of the Township's operations continued during the period under review. In order to fully achieve the efficiencies expected of the consolidation, we suggest efforts continue to integrate the information processing systems along with various administrative and reporting functions pertaining to that of the Utility and Township.

Improvement Authorizations

There exist several improvement authorizations from previous years with no activity that should be reviewed as to their current status. In addition, improvement authorizations should be reviewed on a continuing basis to determine their status for consideration as to funding requirements.

Administration and Accounting of State & Federal Grants

The Township operated various programs during 2015, which were funded in whole or in part by State or Federal grant assistance. These programs often vary as to the application and approval process; matching funds requirements, grant periods, required approvals for modification of budgets and the timing and frequency of financial reporting. As part of the acceptance of these funds, the Township is required to make assurances to the grantor agency that it will comply, in its general operations as well as in the operation of grant funded programs, with various laws and regulations. In addition, the individual grant contracts impose specific compliance requirements for the operations of each program.

GENERAL COMMENTS

Administration and Accounting of State & Federal Grants (Cont'd)

The acceptance of grant funds also places additional requirements upon the Township with respect to the Township's system of internal controls. Based upon the matrix of requirements applicable to a specific grant, the Township's internal controls are required to include systems and policies and procedures designed to ensure compliance with the applicable requirements.

It was noted in the previous and current audit that there are certain grant receivables recorded within the Township's financial statements where no recent activity has occurred. We suggest that the Township review older receivable balances, including grants receivables, for their proper disposition within all Township funds, and in particular the Grant Fund and General Capital Fund.

Compliance with N.J.A.C 5:30:

The Local Finance Board, State of New Jersey, adopted the following requirements, previously identified as "technical accounting directives", as codified in the New Jersey Administration Code as follows:

N.J.A.C. 5:30 – 5.2 - Encumbrance Accounting: This directive requires the development and implementation of accounting systems, which can reflect the commitment of funds at the point of commitment. The Township of Monroe is in compliance with this directive.

N.J.A.C. 5:30 – 5.6 - Fixed Asset Accounting: This directive requires the development and implementation of accounting systems which assign values to covered assets and can track additions, retirements and transfers of inventoried assets. The Township is in compliance with this directive.

N.J.A.C. 5:30 – 5.7 - General Ledger Accounting System: This directive requires the establishment and maintenance of a general ledger for, at least, the Current Fund. The Township is in compliance with this directive.

Compliance with Local Finance Notices

In accordance with Local Finance Notice No. CFO-10, Uniform Construction Code, expenditure records were tested for compliance with N.J.A.C. 5:23.17(c)2 and no exceptions were noted for those items tested.

RECOMMENDATIONS

None.
